

Fact Sheet

Organization: CW Bearing

About Us: CW Bearing is a global leader in manufacturing high end bearings, wheel hub bearings and e-mobility bearings with over 40 years of providing customers with superior quality and technologically advanced solutions. The company has eight manufacturing facilities around the world, including a 50,000 square-foot North American headquarter facility in Northville, Michigan. Unlike many other bearing manufacturers, all CW Bearing plants are ISO 14001 tested and certified. CW Bearing also owns Drake Manufacturing, which designs and manufactures the CNC grinding machines that make many of its products.

Year Founded: 1984

Address: 15200 Technology Drive, Northville, MI 48168
